January/February 2021 Volume 14 Issue 1/2

Lake Shawnee News

MESSAGE FROM THE PRESIDENT JANUARY/FEBRUARY 2021

On behalf of the Board of Governors and myself, may this New Year be filled with joy, health & happiness. I am sure we can all agree that we are happy to see 2020 in the rearview mirror. I am optimistic that we will start to see some sense of normalcy this Spring. Let's all hope and pray; I am certainly more than ready!

As I do at the end of each year, I look back to reflect on the past year, and review my past messages and notes. On a positive note, we completed our long talked about Clubhouse renovations; anyone who has had a chance to take a look has been happy with the results. Otherwise, COVID canceled or modified many events. We had to postpone our Annual Meeting in the Spring, held it in the Fall, and were able to update our bylaws and hold elections. I thank all our members for their cooperation during this difficult time.

Our Social Committee is working hard, as always. You can find our 2021 Social Calendar on our website. I also need to thank Co-Chairs Ruth Kuhl and Kristen White for doing a fantastic job. They were able to run some modified events even during COVID. As always, we need volunteers to help with all our events.

Mark your calendar for the Annual Ice Skating Party/Winter Carnival on January 31st; hopefully, we will have good ice this year. Unfortunately, we are three years running that we had to cancel!

Once our lake freezes, a reminder to use good common sense when venturing out onto the ice. Parents should educate their children about ice safety and supervise them when they are out on the ice. The Club does not evaluate the safety of the ice on the lake, and it is up to each individual to determine the risk when going out onto the ice. With that said, Lake Shawnee has always been a very desirable lake to ice fish and is great for ice skating, as well. I have to remind everyone that badges should be worn or available and especially so for any member guests. We ask that you please do not simply invite friends to utilize the lake without you being present or without issuing them a guest badge. It is all too common to hear from non-members on the lake that they know someone, and it becomes difficult to verify. Keep in mind NJ Fish & Game requires a fishing license for anyone over 16, even on private lakes. Please be courteous to our residents, and please no gas-powered ice augers before 8 am. All our ice fishing rules are posted on our website and in this newsletter.

Please mark your calendar for our Annual Meeting that has been scheduled for Saturday, March 27th, at 11 am. Be sure to see inside this edition for the notice on Board elections. Our election format has changed due to new bylaws changes to conform to NJ Law.

Thank you to the many members over the past year who donated their time and have contributed so much to make Lake Shawnee such a wonderful community!

Happy New Year to all,

Eric Wilsusen
Club President

Christmas Great Light Fight Results!

Thanks to everyone who participated in the Great Light Fight this year! Once again, the lake looked amazing and so many houses looked so festive! Our judges selected 6 Algonquin and 30 Shawnee Parkway for the overall winners!

Congratulations to all!

Happy New Year!!

Summary of the Lake Shawnee Club Board Meetings

November 6, 2020

It was reported that the annual meeting notice was posted on the Lake Shawnee website in the members only section along with the bylaws changes. The annual meeting, which was held outside to allow for social distancing, had a nice turnout.

The low-level outlet was open, and the lake was down, but filled right back up after the rain due to the watershed runoff. The sluice is still open, and we will continue the drawdown until the 15TH of November. The Club is looking into an extension for members who are still working on their properties.

Workday is scheduled for tomorrow; a signup genius has been set up for projects which include mostly leaves. No breakfast or coffee will be served. Work will begin at 9am.

Social Committee reported that the Trunk or Treat on October 18th went great. Texas Hold 'em has been cancelled until January. Upcoming events include Bourbon Tasting, a Scarecrow Contest, and the Great Light Fight. They are currently selecting the winners for the photo contest.

Mr. Keith updated the Board on a new feature he will be including in each edition of the LSNews entitled "Ask Jeff" to answer any questions for members regarding lake ecology.

It was reported that the basketball hoops at 2nd Beach will be repaired in the new year. The dock at White's Cove was repaired.

There was a brief discussion on boats remaining on other Club properties; all owners have been contacted and any remaining boats will be removed. No new boat stickers will be issued in the future to the owners who have left their boats on property.

The water line was repaired from the street to the Clubhouse, the old oil tank will be removed, and the last tree will be removed in the front of the Clubhouse; the handicap parking spot project will be held off until the Spring, so the ground has time to settle. New Jersey Natural Gas will start the next phase of gas line beginning at the Clubhouse; although work should begin shortly, we still do not know how long it will take to get hooked up.

The Board voted to hire Akers Landscaping to remove all leaves on Club properties after Fall Work Day.

December 3, 2020

The Club was granted a one-week extension from Fish and Wildlife to keep open the low-level outlet since we lost 2 weeks due to significant rainfall in October. It was closed on November 22nd. Then after Monday's storm and 3.25 inches of rain, the sluice was reopened and shut today.

Social Committee reported on recent events including Bourbon Tasting and the Scarecrow Competition. Upcoming is the Great Light Fight with judging next weekend.

It was reported that the oil tank at the Clubhouse was removed, and the wall was patched on the side when the pipe was removed. The big tree and stump are gone; the handicap parking area will be done in the spring after the area has time to settle.

There was a brief discussion on notice for Board candidates with the new bylaws changes.

There was a discussion on the rental agreement and the need for individuals to provide proof of liability insurance due to the current health crisis. The Board discussed rentals and use of the Clubhouse to community groups during the pandemic.

Winter Carnival

Join us on **Sunday, January 31st from 1-4pm** for a Lake Shawnee Winter Carnival! We will be changing things up a bit this year since we have not had the best of luck with this event in recent years. Ice or No Ice, we will be holding this event which will include some new outdoor fun activities for all ages. We will of course be giving out hot dogs and hot chocolate as well (if safe to do so depending on current regulations)! Hope to see you there!

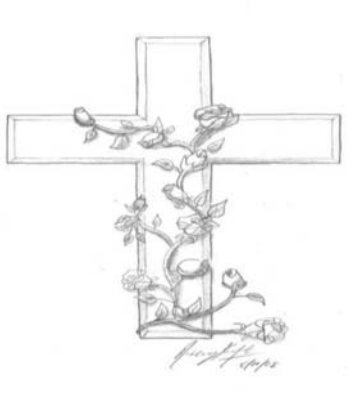
In Memoriam

Rich Fuchs passed away on November 8th at his beloved Lake Shawnee home. He first came to Lake Shawnee as a pre-teen when his Mom bought a large piece of property here in 1948 to build her retirement home. She later decided not to because of our harsh winters. Rich, being an avid fisherman, had dreams of coming home from school and going fishing. As an adult, he never forgot about that piece of property and the land of his dreams. So, he bought that property and had the Crane Company build his two bedroom honeymoon house on it. Two weeks after he was married in 1959, he moved in with his wife, Ellen, and enjoyed raising their two daughters, Deana and Stephanie. Needing a larger home in 1976, they bought the house across from Second Beach. Rich was never one to attend social events, but his home and his family were his world. When their daughter, Stephanie, married and moved back to the lake to raise her two children, Courtney and Callie, he couldn't have been happier. Rich's love for Lake Shawnee will live on through his family.



The Board of Governors of the Lake Shawnee Club would like to offer our condolences to the family and friends of Lake resident Bryan Delp. Bryan unexpectedly passed away on December 15, 2020. He left behind his 3 boys, Matthew, Ryan, and Tyler and his wife Sheri. Bryan was a joyful, fun loving father, friend, and coach to many. He made an impact on others, whether it was through music or sports, he always did his best to support and create relationships with other. He will truly be missed.

Please keep the family of Lake resident Alvin Hansen who passed away peacefully in his home on October 22, 2020 after a long illness in your thoughts and prayers. Alvin, known to many as "squirrel" was a contractor by profession and a resident of Lake Shawnee for over 50 years. Predeceased by his beloved wife, Janet Hansen. He is survived by his two brothers Alan Price and Calvin Hansen, daughter, Theresa Hansen Eckel and his two granddaughters Nicole Zirger and Shannon Eckel.

The Social Committee is Seeking Volunteers

In order to ensure the success and continuation of next year's events, we need more volunteers to come out and lend a hand. Without increased involvement, we will be forced to cancel events that we have all come to love. A large commitment isn't necessary. We are asking members to sign up to chair an event(s). New ideas are always welcome. We will also share experiences and help you every step of the way. Unfortunately, if we do not get people to chair more events, they may be cancelled. So gr ab some friends, pick an event and let's work together to make 2021 an exceptional year!! If you are interested, please email social@lakeshawneeclub.org

Shawnee Seniors Club
Meet **every other Wednesday at 1pm**
at the Clubhouse.
The club is open to all Seniors Age 55 and older.
Coffee and snacks will be served.

In School or Home School???

If you need any help with High School / College Biology or Chemistry; give me a call (973-663-4698).

I have helped a number of students boost their grade point average over the past few years. Call me and we can arrange for a study plan. Leave a voice message if not home, and I'll get back to you.

Al Gazdalski

Slow Down Shawnee!

The group's purpose is to increase safety for pedestrian and vehicle traffic along Shawnee Trails.

Please drive slow on ice and snow!

Other ideas are being explored. This takes time, research, education, and persistence. If you would like to get involved, please join the Facebook group, Slow Down Shawnee, and help make our community safer. Next meeting to be announced on our Facebook page.

LAKE SHAWNEE CLUB, INC

CALL FOR NOMINATIONS OF CANDIDATES FOR THE BOARD OF GOVERNORS

This is to inform all members of Lake Shawnee Club that the period for soliciting candidates for the following positions on our Board of Governors is now open.

President (term of one year)
Executive Vice President (term of one year)
Membership Vice President (term of one year)
Treasurer (term of one year)
Secretary (term of one year)
Member At Large (**four** positions, term of two years)

Any member of the Club currently in good standing is eligible for candidacy to any and all positions listed, including incumbent officers and at-large members of the Board. Persons interested in being a candidate may be nominated by another member or may nominate himself/herself.

Descriptions of each position as well as the definition of a member in good standing can be found within the Club Bylaws on the Club web site, lakeshawneeclub.org.

Voting for all open Board positions will take place at the next Annual Meeting of the Club, tentatively scheduled for Saturday, March 27, 2021. Voting will be accomplished via paper ballots at this Meeting only.

The name and proposed position of all nominees must be provided in writing to the Club Office Manager NO LATER THAN JANUARY 31, 2021.

Nominee names may be provided in person at the Club Office when open, by mail to the Club Office at 4 West Shawnee Trail, or by e-mail to officemanager@lakeshawneeclub.org.

ASK JEFF

Lake Ecology
Jeff Keith
973-663-4230
jeffieboy47@yahoo.com

Since this is the first installment of ASK JEFF — answers to questions about ourbeautiful lake, let's start at the beginning:

Lake Shawnee **is approximately 88 acres with an average depth of 6 feet. We have four feederstreams that flow into Shawnee and keep fresh water constantly flowing into it. It is a manmade lake that was created almost 75 years ago by the Arthur Crane Corp - they created many lakes in this area. Crane was like a beaver that dams up a stream, creates a pond (or Lake) and builds a home in it (or in Crane's case, around it). Lakes sell properties. You create a community within a community where all people have a vested interest in where they live.**

Lake Shawnee is a perfect example of that type of community. Lake Shawnee is a member of COLA (coalition of lake associations) which meets in Lake Mohawk several times a year to discuss issues that many lakes are dealing with such as insurance, membership, bylaws, etc. We generally have at least one board member attend these meetings, so we stay informed.

From last month's article, we all know that we hire a company (Solitude) to manage our weeds and algae problems. They survey at least 6 to 7 times a season and treat when necessary.

The gentleman who works for them has been taking care of our lake for over 20 years. Needless to say, he knows our lake well.

One thing I always get asked is what can I (as a homeowner) do to help keep the lake clean. There is plenty. First, you must understand that every catch basin in our lake eventually drains into Lake Shawnee. So, this effects all homeowners no matter where you live. Let's look at some of the areas on your property and the actions you can take to help.

Septic systems: You all have a mini treatment plant in your yard that needs to be maintained. If you have come from an area of sewers, this is totally foreign to you. Let me explain how this works. Your toilets, sinks, and washing machine hookups all go to a main tank(some people have a separate tank for their laundry). Water from laundry and sinks is called "grey" water because it has no sewage waste in it. So, from the main tank, waste is left behind and the water is drained off into another tank where that water is drained into a leaching bed in your yard. That water leeches into crush rock and then into your soil. As it goes through the soil impurities are leeched out. This is how a properly maintained system works.

Back to the solids left behind in the first tank. They need to be removed by having a company come and pump it out. If not properly maintained, those solids will get into your beds and things will not leech as they should. When water has nowhere to go, it comes up onto the surface and eventually onto your driveway and the street and "you guessed it" into the catch basins. Trust me folks, this has happened many times. And if you are one of the 80 homeowners on the Lake, you must be extra vigilant about maintaining your system. I was very proud when Jefferson adopted a program where your system has to be inspected and pumped every three years. (It can go longer if there are only two people in the house). This was a significant move by our town to make sure our lake stays clean.

Washing your Car: Although many people go to a carwash, there are many who wash their car in their driveway. If possible, pull your car onto your lawn or get as far away from the road as possible. If your driveway is stone, then you are in good shape because it will leech through the stone first. 10 to 15 gallons of car dirt and suds can wind up going into our lake.

The best thing you can do is to go to a carwash.

That's it for now. I hope this was informative. Just always remember, the value of your house and property is directly related to the beauty and health of our lake.

Next month, I will discuss leaves & fertilizer. I bet you can't wait. Contact me with any questions.
Thank you. Jeff

Ice Safety

Outdoor ice sports and activities can be safe and enjoyable, but there is no such thing as 100 percent safe ice. Anyone who spends time near the ice should first determine the ice conditions, and then take precautions to stay safe.

Preventing Ice Accidents

- Follow these guidelines to avoid accidents when on or near ice:
- Check the ice thickness before going out. To be safe, ice should be solid and at least 4 inches thick. Remember, the ice may not be the same thickness over the entire area of a lake or pond. Test ice thickness by using a chisel, cordless drill or ice auger.
- Be safe—the more people on the ice, the thicker it should be.
- Use ice on smaller, shallower and slower-moving bodies of water for ice activities, it is usually more solid.
- Look for objects sticking up through the ice and mark them as hazards.
- Do not go out on ice that has recently frozen, thawed and then frozen again. This happens in the spring and early winter as temperatures change often. Wait until the outside temperature has been below freezing long enough that at least 4 inches of solid ice forms over the entire area.
- Always stay with at least one other person.

Source: American Red Cross

LAKE SHAWNEE
ICE FISHING RULES

- No use of gas-powered augers before 8 AM
- No fishing closer than 50 feet from the shore of anyone's property unless it is your own
- No fishing closer than 100 feet from the Beach areas and directly behind the Clubhouse
- Drill no more than ten holes per person per day
- Return all fish to the Lake alive that you do not intend to eat or otherwise take with you
- When leaving, take everything off the ice with you, including fish, garbage, coals, firewood, cans, etc.
- No glass bottles allowed on the ice at any time
- No fires allowed on the ice other than cooking on a grill
- Member or guest badges must be worn while on the ice

These rules must be followed in order for all of us to continue enjoying our ice fishing on Lake Shawnee!
